

Why is this Head Teacher Leadership Academy (HTLA) Different?

"The training and development offered is often dominated by regulation and or legal/policy compliance issues. There are few programmes offered for the development of personal and interpersonal skills, emotional intelligence, cultural and strategic leadership, leadership of change, implementing mentoring or coaching, developing shared leadership, or growing leadership capacity in self and in others." Marks 2002-03

Link this quote to our experience of HTLA.

Discuss the difficulty that all head teachers have in dealing with the problems that just happen and for which there is no rule book for. Give example from own experience that you have had to deal with. Rule is that in times of stress you have to rely on your core values.
